

Measuring the Co-operative Difference Research Network

CURA Organization Chart

Hub: CCA
Central coordination of overall project.
Co-Directors
Provide oversight of all research, reporting and dissemination.
Coordinators
Provide support to Co-Directors, prepare reports, organize events, manage websites and other project support.
Management Committee
Comprised of Co-Directors and Cluster Leads with support of Coordinators; set research direction for the research network, meet to set network targets, etc.
Cluster Leads
Organize research within their cluster, manage cluster budget, responsible for cluster reporting to Hub, organize collaboration within cluster and outside of cluster where appropriate.
Project Leaders
Lead researchers on research project, responsible for ethics review, report as requested by Cluster Lead.
Project Team Members
Community partners, academics and students directly involved in a research project.
Partners
Other researchers, students and organizations interested in the research and related activities, but not directly involved in a project.
